An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Calvetti on January 16, 2008.

The application has been amended as follows:

Cancel claim 7.

The following is an examiner's statement of reasons for allowance: The prior art of record, either alone or in combination, fails to anticipate or render obvious the instantly claimed catalyst composition and method for the use thereof. The prior art fails to teach, suggest or appreciate the specifically claimed composition of a proton zeolite beta with a specifically claimed ratio of silica to alumina. Applicant's specification demonstrates that when used in an NO reduction process in the presence of methanol and/or dimethyl ether, a catalyst in the proton form with the specifically claimed ratio demonstrates an improvement in performance that is not predictable and could not be determined from the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
